Open to Oneness

The vision of 'Oneness' awakening in people all across the globe has been in my heart and mind since I was a young girl. To me, Oneness is not sameness; it refers to experiencing our profound connectedness, while enjoying our unique expressions of individuality. I believe it is within our human potential to experience Causeless Peace, Joy, Creativity, Health and Unconditional Love in our everyday lives, when we 'Open to Oneness' and practice Gratitude.

I'd like to invite you to close your eyes, experience this beautiful music and the comfortable release of limited perspectives, negative thoughts or undesired patterns that do not serve your health or wellbeing. Through new perspectives, our lives and experiences begin to shift naturally.

With warmest regards,
Lindsay Wagner
